A COLLECTION FOR ARCHITECTS CHOICE

A COLLECTION FOR ARCHITECT'S CHOICE

INSPIRATION CAN
COME FROM
ANYWHERE,
ANY TIME.

MANY TREND RESEARCHERS SAY THAT
TRENDS NO LONGER EXIST.
ON THE CONTRARY!

They do exist, no longer as a single major movement but in the form of varied styles with individuality as their principal feature. Consumers are able to filter their own private blend out of this plethora of parallel styles. The requirement to follow devotedly a certain trend is a thing of the past, and people are now creating their own personal environment in a collage of styles. Anything goes these days. The internet in turn is contributing to a growing repertoire of possible means of furnishing, leading to a mingling of opposites such as old and new, sensible and outrageous in a contemporary look. Thanks to the sheer diversity of furniture offerings, no home need resemble any other. An individualistic style as singular and unique as a fingerprint is the result. With all restrictions gone, home are becoming places where individuality finds room to unfold.

Our ROTOLAM ARCHITECT CHOICE COLLECTION
offers support based on a sure sense for trends to help our
customers make the right choices.

PROGRESS IS NOW!
POETRY ROCKS!
COMFORT IS YOURS!

Golden Ration

The "golden ratio" is a unique mathematical relationship. Two numbers are in the golden ratio if the ratio of the sum of the numbers (a+b) divided by the larger number (a) is equal to the ratio of the larger number divided by the smaller number (a/b). The golden ratio is about 1.618, and represented by the Greek letter phi.

The golden ratio is also called the golden mean or golden section. Mathematicians since Euclid have studied the properties of the golden ratio, including its appearance in the dimensions of a regular pentagon and in a golden rectangle, which may be cut into a square and a smaller rectangle with the same aspect ratio.

This guide is here to explain all. In short, it's a mathematical ratio, commonly found in nature. It can be used to create organic-looking, visually-pleasing compositions in your artwork or design projects, and is useful for graphic designers, illustrators and Architects. Also known as the Golden Mean, The Golden Section or the Greek letter phi, it can be deployed to bring structure and harmony to your projects.

Product : High Pressure Decorative Laminated Sheets

Size : 2440 mm X 1220 mm

Thickness : 1.0 mm and 1.5 mm

Finish : Gloss, Suede, Matt and many more emboss

Standard : ISO 9001:2008 certified processes for quality assurance of International Standard

Resistance : To surface wear immersion in boiling water, Dry Heat, Impact by small diameter ball, Cigarette burns, Staining Scratches, Color change in Xenon light

Maintenance : Clean with mild soap solution or House Hold detergent, Adhesive should not be used, Avoid direct Sunlight.

Note : Sample pasted here in represents only color and finish may not be of actual thickness, please keep away laminates from direct sunlight. The products must me inspected prior to installation. In case of any claims, the liability of the company is limited to the product only.

Properties

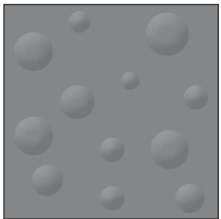

- Support for high load
- Durability
- Indoor use only
- Easy to mill
- Fire retardant
- Easy to clean
- Resistant to chemicals
- Antibacterial properties
- Perfect lacquering
- Resistance to cigarette burn

Applications

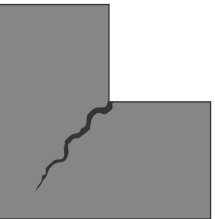

- Kitchen
- Sports & Leisure
- Worktops
- Living Room
- Restaurant & Hotel
- For paneling
- Bedroom
- Health & Wellness
- Healthcare & Laboratories
- Office & Education
- Retail & Exhibitions
- Doors

Limited Warranty

- Kindly check the sheet in all aspects immediately after purchasing & prior to cutting.
- In case of manufacturing defect, only replacement of used sheet will be made.
- No warranty for corner crack or Air bubble.
- No Claim will be entertained there after in any of the specific.

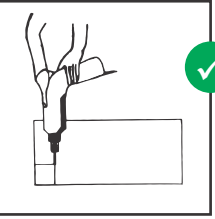

No Claim will be entertained for Air Bubbles

No Claim will be entertained for cracking arising at groove or L.Shape

Do not use nail and hammer while cutting corner, grew, angle or design.

Only use a drill to cut such corners, grew, angle or design.

▲ These are Premium laminate and are priced differently.
